SERIOUSLY GREEN

ENVIRONMENTAL POLICY STATEMENT

Seriously Green Ltd provides professional environmental services to the construction and wider industries, including advice & guidance, site inspections, environmental management system development, awareness training and qualified person services.

Seriously Green Ltd is committed to minimising the impact of its activities on the environment and will do this through:

- Minimising resource use
- Using sustainable materials wherever possible
- Using local suppliers where feasible
- Minimising waste
- Preventing pollution
- Compliance with all relevant legislation and other requirements

In addition, Seriously Green Ltd will aim to assist its clients to minimise their environmental impacts through:

- Promotion and sharing of best practice
- Encouraging the use of sustainable materials and processes
- Providing advice on pollution prevention and resource efficiency measures

This policy will be reviewed regularly and updated as required.
